

SOX10 (M)

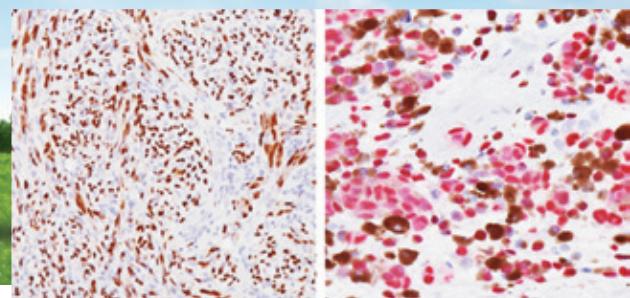

The Cleanest SOX

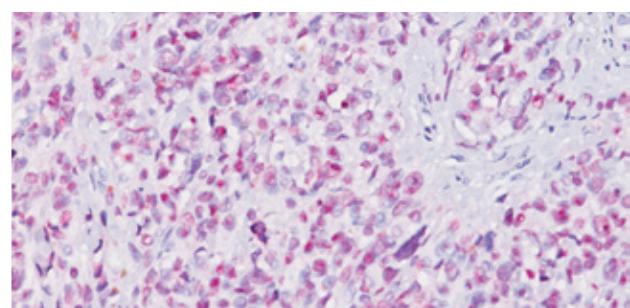

The Cleanest SOX

SOX10 (M) [BC34] from Biocare Medical is an exclusive IVD mouse monoclonal antibody that provides a highly specific and sensitive antibody for immunohistochemistry and is virtually background free.

SOX10 has been shown to stain the vast majority of cutaneous and metastatic melanomas, including 97-100% of spindle cell and desmoplastic melanomas, 100% of nevi, the majority of oligodendrogiomas and a large percentage of astrocytomas and poorly differentiated glioblastomas. PATENT PENDING.

(L) Spindle cell melanoma (DAB); (R) Pigmented melanoma (Fast red)

Melanoma stained with SOX10
